## Getting Started

Welcome and congrats on your Zendo Smart Cam Mini purchase! Using this Quick Start Guide, you'll walk through the installation and initial setup of your Smart Cam Mini.

For the latest information, product updates, and everything Zendo visit **GoZendo.com/Support**.

Still have questions? Reach our Customer Experience team at **Support@GoZendo.com** or toll free at **1-844-77-ZENDO (93636)**.

Included

Smart Cam Mini & Magnetic Base

USB Power Cable

Plug-in AC Adapter

Screw

Drywall Anchor

Magnetic Disk

zendo

Wristband
(Remove from cap)

Setup

1. Ensure your iOS device is on your Wi-Fi network.
2. Download the **Zendo View** app and sign up for an account.
3. Plug your Smart Cam Mini power cable into the camera and an outlet, and remove the protective film from camera lens.

Wait until the LED light is alternating white & amber.

4. Open the **Zendo View** app, tap **+** to start setup.
5. Once available, select your Smart Cam Mini then tap "Add to My Network."

6. Ensure the Wi-Fi network selected matches your iOS device Wi-Fi connection then tap "Next."

Once connected, the LED light will double-blink white.

7. Once your Smart Cam Mini has successfully joined the network, tap "Done."

8. Tap "Enter Code" then input the 8-digit code found on the included Setup Code Card.

The LED light will flash white during setup (up to 5 minutes).

9. Done! Your Smart Smart Cam Mini will now appear in the **Zendo View** app.

The LED light will be solid white after a successful setup.

Mounting

To attach your Smart Cam Mini to a wall or ceiling, use the included mounting hardware.

Indicator Lights

After successful setup, the LED light on the front of the Smart Cam Mini displays its current status.

○ Power On
⋮ Busy
● Power Off
● Offline / Error

Consciously Packaged

Zendo packaging is made using recyclable and biodegradable materials.

Troubleshooting

If your camera's LED light is amber immediately after setup, try resetting the camera then starting the setup process over again. Insert a pin into the "Reset" hole on the back of the camera – hold in place until the white and amber LED lights are both on. This will initiate the reset process. Do not restart the setup process until the LED light alternates white and amber.

⚠ Warning

Read this Quick Start Guide and Product Usage Guidelines found at **GoZendo.com/Support** carefully before using this product. Failure to follow precautions in these documents can result in serious injury, death, and/or property damage. Keep this guide for future reference.

⚠ WARNING:
CHOKING HAZARD
Keep away from children. Contains small parts that may cause choking. Contains power cable that may present strangulation hazard.

RISK OF ELECTRIC SHOCK
Do not use near water. Install and use in accordance with applicable electrical codes and regulations.

FCC NOTICE
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference and 2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna, increase the separation between the equipment and receiver, connect the equipment into an outlet on a circuit different from that to which the receiver is connected, consult the dealer or an experienced radio/TV technician for help. To assure continued compliance, any changes or

modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

IC NOTICE
Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication. This device complies with Industry Canada license-exempt RSS-247 standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. This device complies with RSS-247 of Industry Canada. This Class B device meets all the requirements of the Canadian interference-causing equipment regulations. This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of

20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible. "Made for iPod," "Made for iPhone," and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, iPhone, or iPad may affect wireless performance.
